

maximization of the frequency domain likelihood function

local level plus seasonal model: series 1

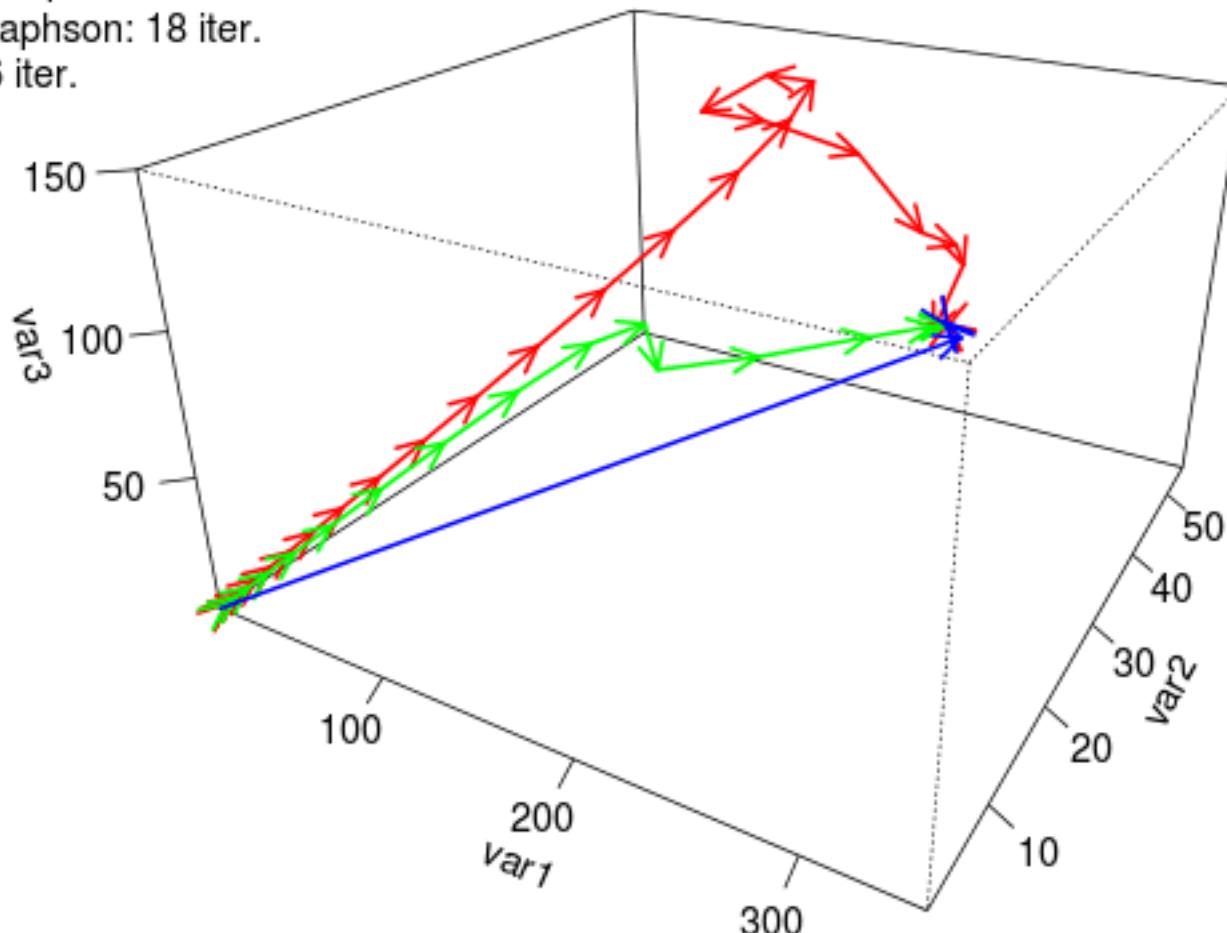

- L-BFGS-B-optim: 28 iter.
- Newton-Raphson: 18 iter.
- Scoring: 8 iter.

maximization of the frequency domain likelihood function

local level plus seasonal model: series 2

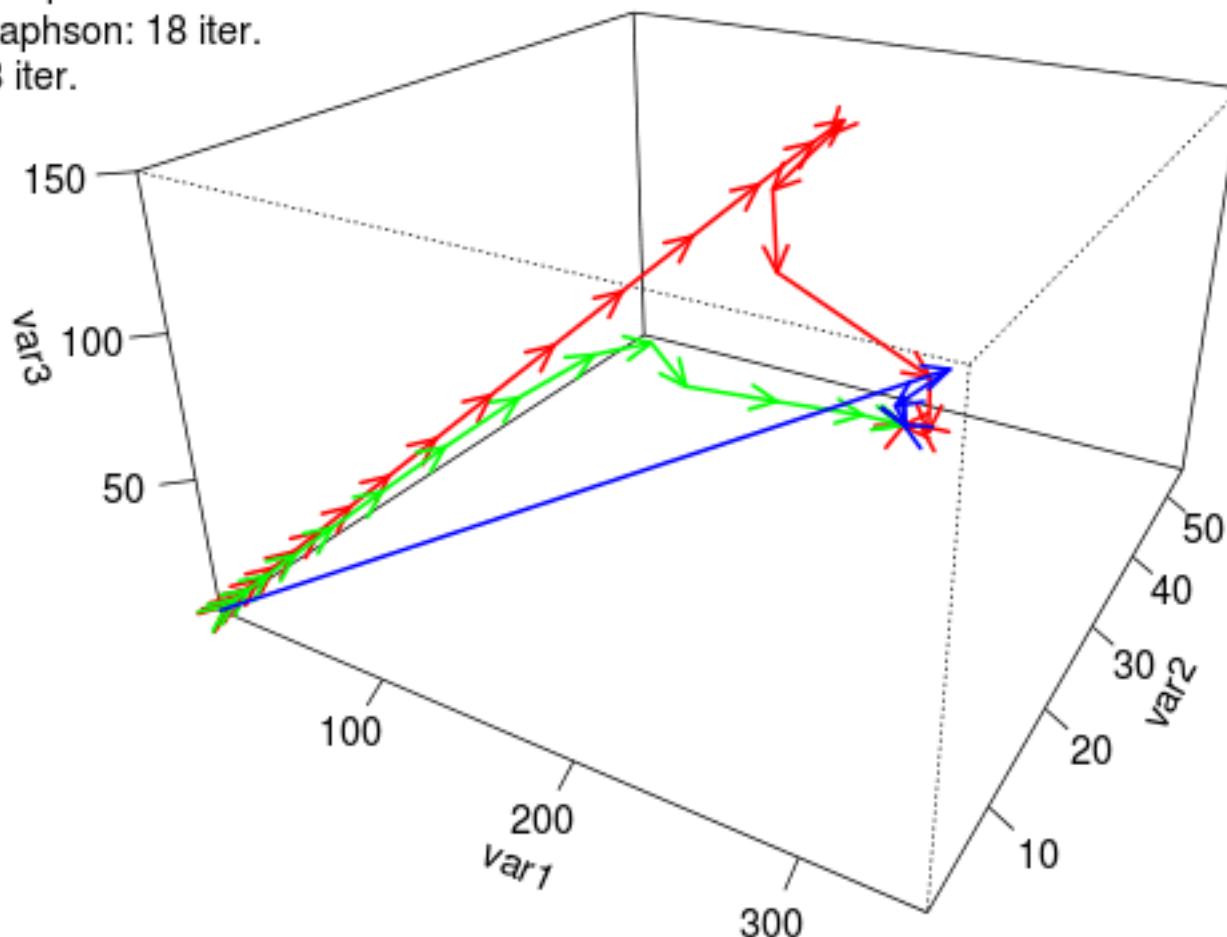

- L-BFGS-B-optim: 32 iter.
- Newton-Raphson: 18 iter.
- Scoring: 6 iter.

maximization of the frequency domain likelihood function

local level plus seasonal model: series 3

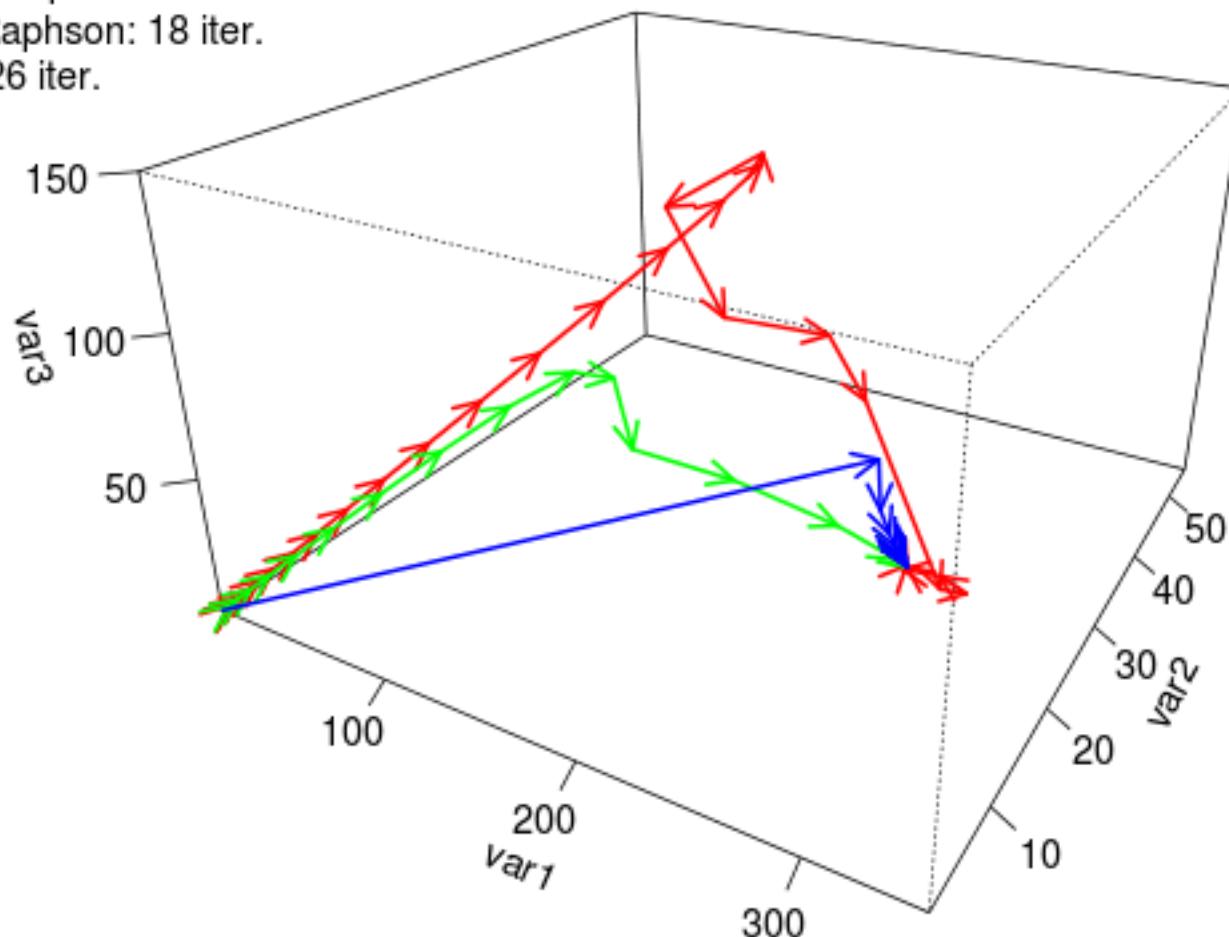

- L-BFGS-B-optim: 28 iter.
- Newton-Raphson: 18 iter.
- Scoring: 8 iter.

maximization of the frequency domain likelihood function

local level plus seasonal model: series 4

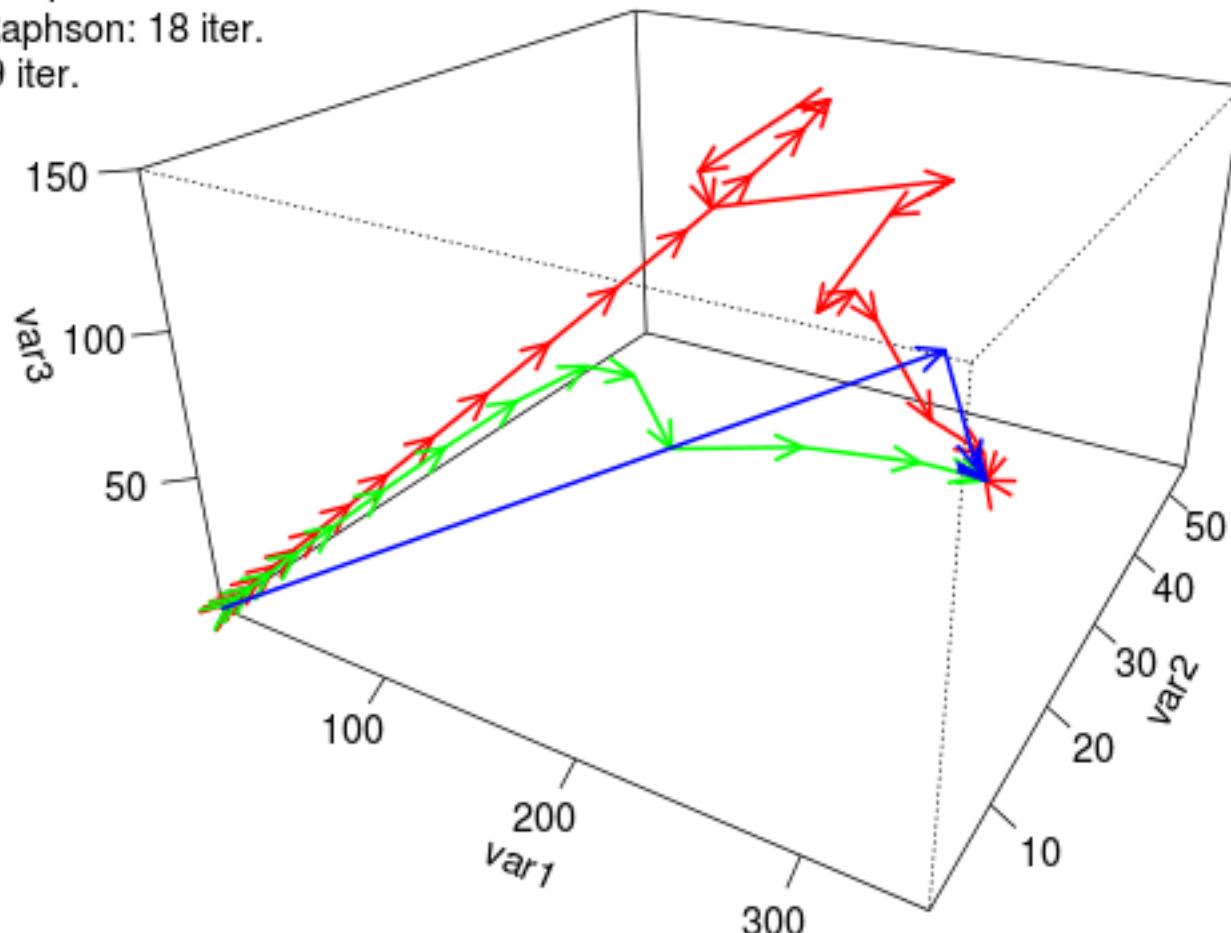

- L-BFGS-B-optim: 30 iter.
- Newton-Raphson: 18 iter.
- Scoring: 26 iter.

maximization of the frequency domain likelihood function

local level plus seasonal model: series 5

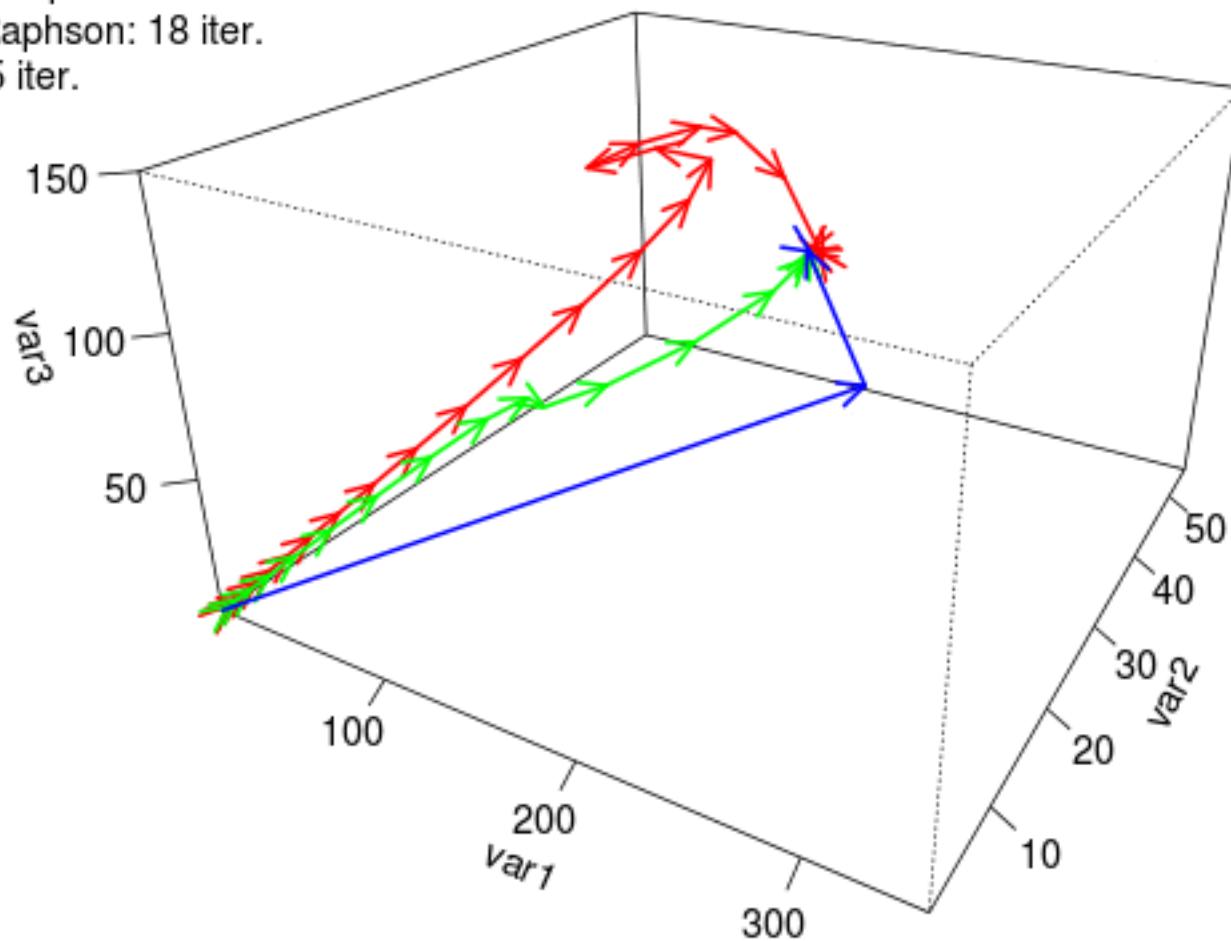

- L-BFGS-B-optim: 33 iter.
- Newton-Raphson: 18 iter.
- Scoring: 9 iter.

maximization of the frequency domain likelihood function

local level plus seasonal model: series 6

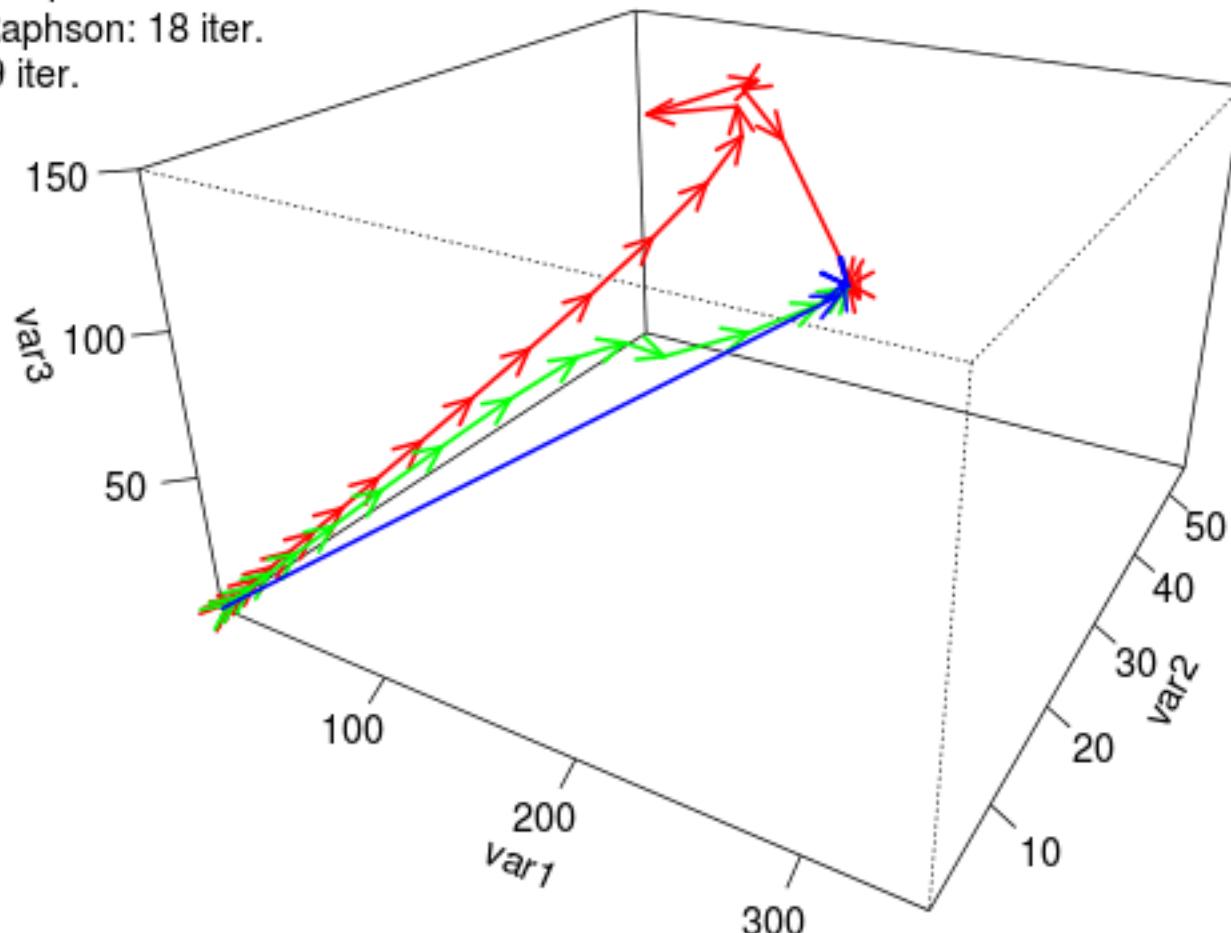

- L-BFGS-B-optim: 30 iter.
- Newton-Raphson: 18 iter.
- Scoring: 5 iter.

maximization of the frequency domain likelihood function

local level plus seasonal model: series 7

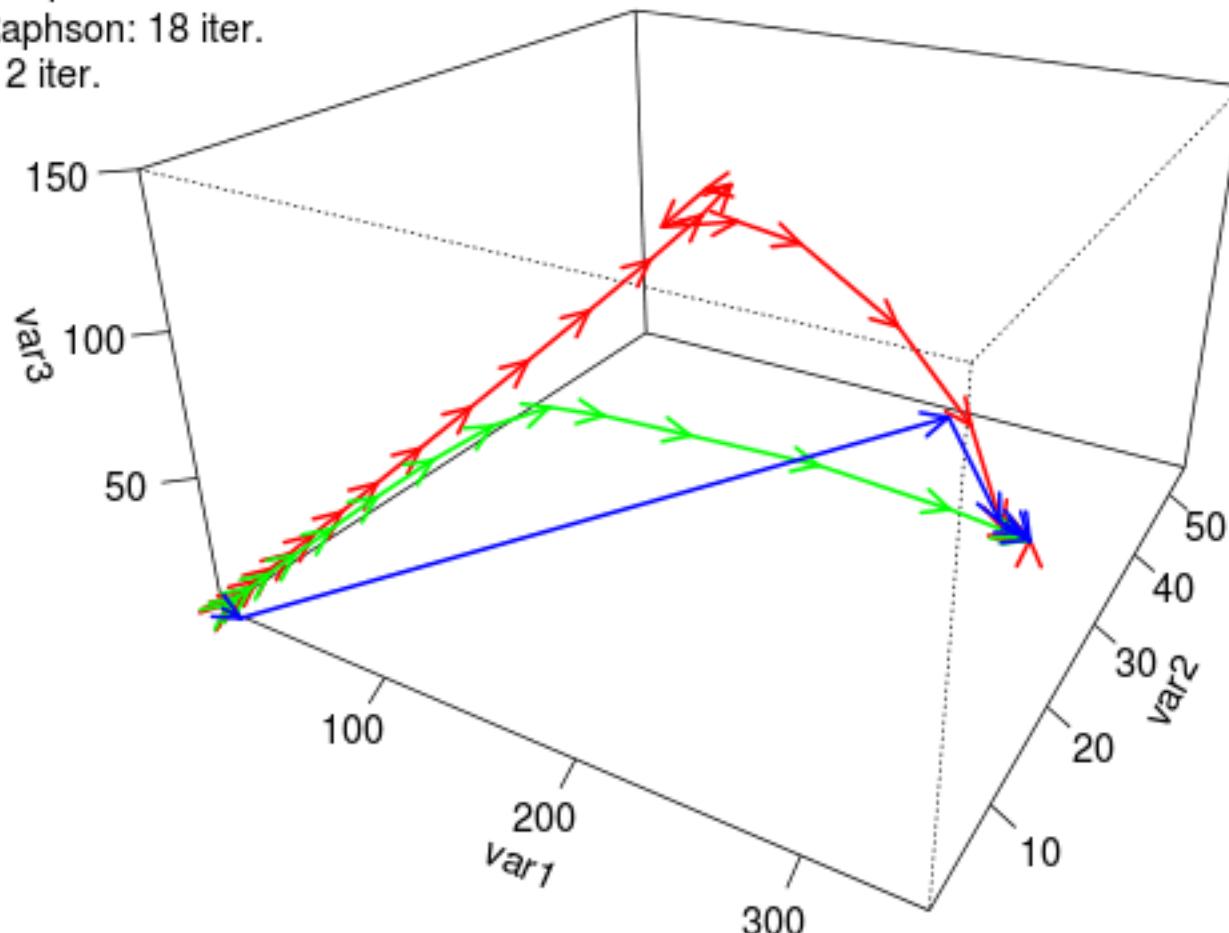

- L-BFGS-B-optim: 29 iter.
- Newton-Raphson: 18 iter.
- Scoring: 9 iter.

maximization of the frequency domain likelihood function

local level plus seasonal model: series 8

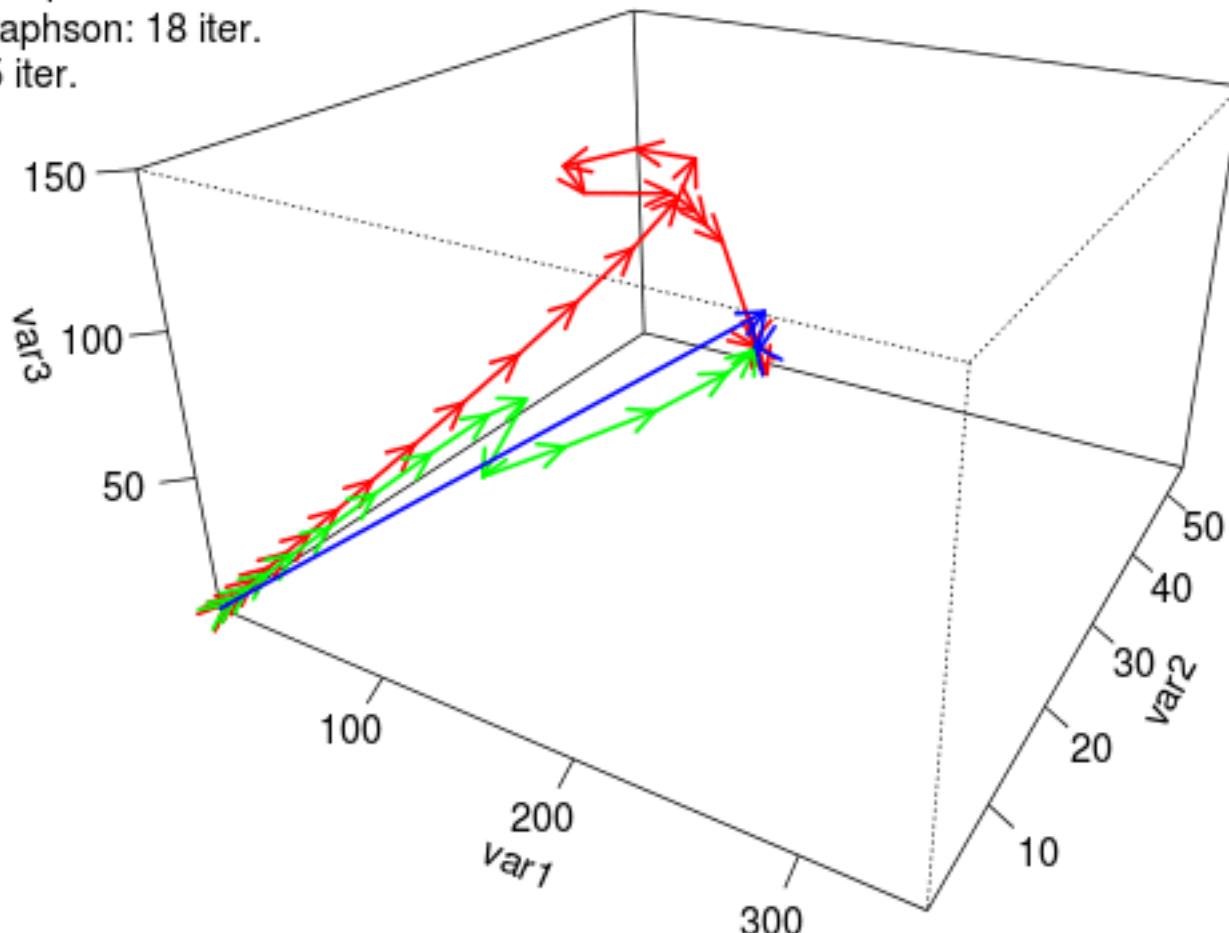

- L-BFGS-B-optim: 30 iter.
- Newton-Raphson: 18 iter.
- Scoring: 12 iter.

maximization of the frequency domain likelihood function

local level plus seasonal model: series 9

- L-BFGS-B-optim: 31 iter.
- Newton-Raphson: 18 iter.
- Scoring: 5 iter.

maximization of the frequency domain likelihood function

local level plus seasonal model: series 10

- L-BFGS-B-optim: 30 iter.
- Newton-Raphson: 18 iter.
- Scoring: 8 iter.
